mediate. BLOOMING GROVE, Dec. 1st 1849. Mesers. S. F. Bennert & Co.-Gents; Som time in 1843 I was attacked with King's Evil in my arm, which became so sare that I could not use it, and in 1845, mortification set in. I em-ployed, at different times, each physician of cele-brity within my reach; all told me that my arm must be amputated. From the shoulder to the forearm, my arm was full of running gores, some of them as large as a fifty-cent piece. I then tried an Indian Doctor, who removed the mortified flesh, and stopped the mortification, but could not heal my arm. My strength at this time was completely exhausted, and my person much emaciated. I continued in this state until the summer of 1848, when I saw an advertiseshop, from a saddle down to a pump sucker. Having been selling work for some time for the profit of it, we now intend to sell for the fun of it.

Dr Perrita, in his famous treatise on "Food and

Cash should give its possessor an advantage which under the present system of trade fails to realize; it being an undeniable fact that no business can be conducted as cheap for credit-as cash, and no fair dealing man will make a disnction prejudicial to either, when two classes of ustomers are brought face to face.
